Authority to defend · Right in Constitution · Millions of defensive uses · Evil of disarmament · Disarmament fails

OPENING FRAME → START HERE

The right to keep and bear arms is the right to defend innocent life — against criminals today and tyranny tomorrow.

ARMED PATH**A****AUTHORITY TO DEFEND**

Scripture treats defending family and home as legitimate (Ex 22; Luke 22:36).

**R****RIGHT IN CONSTITUTION**

“The right of the people... shall not be infringed” — Heller affirms an individual right.

**M****MILLIONS OF DGU**

Practical: defensive gun uses vastly outnumber criminal uses; police can't be everywhere.

**E****EVIL OF DISARMAMENT**

History: major 20th-century democides followed citizen disarmament.

**D****DISARMAMENT FAILS**

Logic: criminals ignore gun laws. Control disarms the law-abiding first.

COUNTERS**THEY SAY**

“Turn the other cheek”

**YOU SAY**

Jesus addressed personal insult, not abandoning the innocent to violence.

THEY SAY

“Only the military needs guns”

**YOU SAY**

The Founders wrote the 2A to secure the people's right — not a government monopoly on force.

THEY SAY

“Other countries have fewer shootings”

**YOU SAY**

Culture, family breakdown, and mental health drive violence. High-ownership Switzerland/Israel aren't US-style chaos.

THEY SAY

“We just want common-sense laws”

**YOU SAY**

Define them. Many “common sense” proposals fail criminals while burdening the innocent. Target crime, not rights.
